***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2 and 25 rejected under 35 U.S.C. 102(b) as being anticipated by Oliver (5453041).

Oliver disclose a sharpening burr having a cylindrical body (fig.15) with an outer surface, a plurality of teeth (fig.1) with a lead angle (see fig.12 the teeth forms angular profiles),and a linear profile (fig.11).

***Allowable Subject Matter***

3. Claims 26-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

4. **Applicant's arguments filed 3/24/03 have been fully considered but they are not persuasive.**

5. **Applicant states that 102 is invalid.**

a. The applicant states that the teeth extend substantially from one end of the burr to the other. The prior substantially extends as well because the applicant is not saying that absolutely do; therefore, the broadness of this term means that the prior art only has to substantially extend.

**6. Applicant states that claim 25 is allowable.**

b. The applicant makes a valid point showing the diagrams which show the angle is not shown by adjustments in height, but the examiner is not referring to the height but the actual position of the teeth is angular look at figure 12.

***Conclusion***

**7. THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
